- Skills:

- Language: swift, Objective-C , C
- Advantage : Embedded , Algorithm , Analysis, Speed.
- Frameworks experience: UIKit, SpriteKit , GameplayKit,nodejs , Embedded linux,WDM ,RaspberryPi,
- please visit my github page with some gif of UI I developed. <http://goo.gl/mK1FpO>
- RF Instrument RED es303340 test program with SCPI/c#
- Firebase: real time data sync between multiple clients.
- SpriteKit: tileMap , spriteNode . pathFind , stateMachine.
- Tools: git, Dash, vs code, Charles.
- others : Strong Embedded skill (up 10 years for Embeddded experience about I2C , Bring up , USB 2.0 driver,UART , Feature Phone JVM porting,MMI)
- Recently completed project and done :
  - libuvc add h264
  - CDN lib packet / youtube/fb/mixer/niconico/twitch . /get streamky , uploadfile ..
  - device firmware update (Reverse Engineering ): usb driver / app drive /firmware . since there are not any code in device . use usb sniffer for Reverse Engineering.
  - webRTC /ios APP /signal server/firmware ,over firewell
- 6 months 6 times Best staff at AverMedia . ( RD party)

- Work Experience:

- Mac Deputy manager@AverMedia Inc Taipei 2017-now
- Technical director@Zhenhang inc Taipei 2013-2016
- Software planner/architecturer @Compal Inc Taipei 2010-2013
- Embedded system developer@ MTK, XCUTE, iaSolution,Tecom .

- Profolio:

- Booking System APP

1. coding in swift 3.0
2. use Firebase to real time data sync between different mobile clients.
3. Support Facebook login , Google login , id-password login.
4. notification,#coreData

demo video:<https://youtu.be/Uu4bA6-zPD0>

- EasyTool ,Mac screen capture folder Easy Setting.
